# The Essence Of A College Education - HANDED TO YOU in One Magnificent Volume!

## HISTORY

From the Stone Age to the World War, from the Roman Empire to the recent Russian Revolution, from Charlemagne's times to Modern America—all this and more awaits you in this section of the book. Vividly portrayed, the characters and events of History from the earliest times known, pass before your eyes in an endless dazzling array. Dukes, Kings, Emperors, all live and die as Time marches ruthlessly on. Here indeed, is a fascinating part of man's knowledge—one which will hold you spellbound from start to finish.

## SCIENCE

In this most interesting section you will read all the essential facts about the Sciences. Here the importance and industrial uses of Chemistry and Physics are made plain; the mysterious secrets of Astronomy are made astoundingly clear; Biology and its fascinating intimate revelation of our own very existence is thoroughly described; Psychology's practical uses are graphically painted, and Sociology, one of the newer sciences, is splendidly outlined. All the sciences known to humans—from Aristotle to Einstein—are now presented to you in an absorbing and comprehensive manner.

## All Knowledge Now At Your Command

SUPPOSE that by some miracle all man's knowledge were put into six mammoth volumes, each volume would then have hundreds of thousands of pages and each would take a lifetime to read.

BUT if the most important and interesting parts of each of these subjects could be torn out and combined into one volume, it would make a work so simple, so fascinating, so educational and so important that no cultured person could afford to be without it.

Comprehensive, yet fascinatingly easy beyond belief, the story of man's knowledge throughout the Ages is graphically unfolded for you, subject by subject. The reader of such a comprehensive story must naturally gain a broader outlook—a more complete knowledge. And intelligent knowledge creates that positive asset of self-confidence. The important and interesting facts of the march of civilization are things which every intelligent man and woman must know if they are to have a deeper culture and a more liberal understanding.

## A Liberal Education In One Volume

In "The Outline of Man's Knowledge" all the mightiest figures of civilization will parade before

## LITERATURE

In this remarkable division of the book you will find the outline of all the important Literatures of the World since earliest times. Here is a résumé of all man's writings from earliest Egyptian times to Shaw; from the beautiful works of the Persians, Chinese and Japanese of the pre-Christian era to Edith Wharton, Theodore Dreiser and Sinclair Lewis; from Chaucer, Caedmon and von der Vogelweide to Chesterton, Tarkington, Cabell, and many important moderns. Here indeed is an array of literary lights, illustrating the important writers throughout the Ages.

## ART

This part is devoted to the important things that you should know about the Arts. Here, the Italian, French, Dutch, Spanish, British and American Schools are described and their comparative standing discussed. Sculpture and Architecture since earliest times are fascinatingly outlined, and the relation of these two arts to Buildings and Furniture is delightfully reviewed. Music and dancing are here, too. Folk and the Modern Dance are contrasted and the history of Musical Development traced—from African tom-toms to George Gershwin, from sensuous Eastern rhythms to Cesar Franck, from Indian Music to Eric Satie. All these pleasures await you.

your eyes. You will read about them as personalities as well as about their place in History and their importance in their own times. You will discover their influence on Humanity's forward march in cultural as well as historical fields. You will not be bothered with dreary detail—with irrelevant facts—with elaborate explanations.

Here is a book you cannot afford to be without, a book that covers every important fact about man's knowledge ably and clearly. This is a book that will increase YOUR delights a thousandfold in the subjects which have gone to aid man's march against ignorance. Send for it today—at our expense—and double YOUR joy of living.

## Examine It FREE

Here is a remarkable opportunity to secure this all-inclusive book without any cost or obligation, for a week's free examination. Send no money. The coupon below will bring you your copy. If you are not convinced that this is the biggest value for the money that you have ever seen, send the book back and do not pay anything. Here indeed is a worthwhile story of humanity's most astute thinkers.

## RELIGION

Here is a fascinating subject, ably and comprehensively treated. Now for the first time you can understand the guiding principles of all the important Religions of the World. Here at last they are easily and simply described. The lives of their founders are outlined, and the beliefs of these sects are simply set down. By Grace Wiley.

There is noticeable a growing disposition to use furs a bit more formal rather than the typically sport ones with the new tweeds. This may be due partly to the greater luxury of these later tweed weaves, such as the lacy weaves or the ostrich feather tweeds which have the fuzzy fronds of dyed ostrich woven into them, adding both color and softness to their texture.

The dyed lapins so popular this season are especially appropriate with tweed since they in themselves are newly sportslike in character.

THE LITERARY GUILD, INC.  
55 Fifth Avenue, Dept. 2 M.W.P.  
New York, N. Y.

Gentlemen: You may send me a current selection as a sample of the Guild books and service. I am interested in joining the Literary Guild, but this request does not obligate me to do so unless I wish to after reading the book and studying the details of the Guild plan. I enclose 25 cents to help defray the cost of packing and mailing.

Name.....  
Address.....  
City.....  
State.....

FOR nearly three years the Literary Guild has been telling American book-lovers and readers how they could save money on twelve of the best books published each year. The sum of money saved by the members in that time reaches a staggering total well over \$2,000,000.

The books they have received have been the very cream of literary entertainment, covering scores of subjects and embracing every field of writing except drama. A few of the selections are pictured here. Fiction, biography, travel, humor, adventure, essays and poetry.

Each month brings a new surprise to members—every volume they receive broadens their horizon and increases their love for better books.

The thousands who have joined have not been disappointed. They bought the books before they had seen them—and

the Guild kept faith by giving them *more* than they expected. If you had seen the Guild books you would have joined long ago. No reader could reject the Guild offer with the books themselves before him.

#### 10,000 New Members by January First

NOW—in a sincere effort to show you what you have been missing—you are enabled to see one fine example of all Guild selections. Frankly, this offer is made for the sole purpose of convincing those who have long wavered on the verge of deciding to join. Now, with a sample book before you, you will almost certainly join at once. More! You are privileged to read and keep the volume with our compliments. It may be a novel. It may be a brilliant biography or some other highly entertaining work. No one knows beforehand what the next Guild selection will be. The Editorial Board, headed by Carl Van Doren, selects the titles from manuscripts before publication for the retail trade.

# This Coupon Brings You a LITERARY GUILD Book FREE

If you act at once you can obtain a current selection of the Literary Guild as a "sample"—to show you just what all Guild books are like. The retail value of this book may be as much as \$5—it will in no event be less than \$2.50!

The books are specially bound for members only in a distinctive format which is often superior to the higher priced trade edition. This binding is not uniform, each book being manufactured in keeping with the spirit and style of the subject and text. Many are illustrated.

#### A Greater Guild in 1930

Early in January the Literary Guild will announce a new free feature of membership—the most startling in its history. Those who join the Guild now will enjoy this added advantage without extra cost.

Mail the coupon above for full particulars of the Guild plan—and a current, cloth-bound selection free. Act at once, since this offer may be withdrawn without notice. Read the book; examine its paper, typography and binding. Analyze the Guild plan closely—then join or not as your own good judgment dictates. Accepting the free book for your library does not obligate you in the least.

**The Literary Guild of America, Inc.**  
Dept. 2 M.W.P.  
55 Fifth Avenue, New York, N. Y.

#### Note To Members

In fairness to those already subscribing to the Guild, the offer made on this page will be extended to them upon renewal of their present subscriptions. No matter when your present subscription expires, if you will designate your intention to renew before this offer is withdrawn, one month will be added to your membership or—upon request—you may have a duplicate of any past Guild selection—perhaps to be given to an appreciative friend.
